THE HARVEST OF THE HEAD.

When the comb is as rare, bringing away a roll of perfect hair every time by the comb, through the hair, baldness would seem to be inevitable. But even in this case, forsooth, it may be cured, the mischief can be arrested, the loss repaired. Lyon's Katharine, aided by a brisk application of the brush to the scalp, will restore the thinning-out process in forty-eight hours. The roots from which the dead filaments were shed will soon be re-endowed with vitality, and a new growth will speedily spring up on the denuded places. This work of reparation will go on until the damage is completely repaired, and the luxuriant crop of hair thus produced will never wither or fall out so long as the vitalizing application is regularly continued. jan30t

Attorney's Office.

Allen Wilkin, aged about 17, son of David Wilkin, a farmer who resides about 3 miles west of town, on the Danville pike, attempted suicide on the night of the 10th inst., by shooting himself with a pistol. He placed the pistol in his right temple, and fired, but the ball probably struck the bone, or the shot would have proved fatally fatal. He is still living on Monday last, but little hope is now entertained of his recovery.

The only reason given by young Wilkin for his rash act, was that his father had refused to buy him a pair of boots. He has always been of sound mind, healthy, moral, and of a lively disposition, and his attempt at self-destruction is most mysterious and unaccountable to his relatives and friends. He is attended by Drs. Holmes and Hoyt, of this place.
